

Electric diamond cutters

DCH 300 & DCH 230

Keeps going where others can't

Applications

- Cutting materials such as reinforced concrete, granite curbstones, slabs, brick and masonry blocks
- Cutting metal beams, steel pipes and reinforcing bars
- Preliminary cuts for controlled demolition
- Cutting and extending openings for windows, doors and shafts

Advantages

- Cuts can be made at up to twice the depth possible with conventional angle grinders
- Greater safety: the tool is guided away from the operator's body
- Conversion kit to convert the DCH 230 into DCH 180-SL (60mm wide, 60mm depth)
- Overheating and overloading protection
- Exact cutting depth adjustment with depth gauge (optional)
- Cutting discs and accessories perfectly matched to the tool

Technical data

	DCH 300	DCH 230
Power range	2600 W	2600 W
Disc diameter	305 mm	230 mm
Speed (no load)	4300 rpm	6500 rpm
Max. cutting depth	120 mm	85 mm
Supply cord length	5 m	5 m
Dimensions (LxWxH)	705x240x235 mm	670x240x210 mm
Weight in accordance with EPTA-Procedure 01/2003	9.4 kg	8.7 kg
