# Contractor

The most  
efficient  
mini dumper  
in the world

UNIQUE STEERING  
GEAR ENSURES  
SUPREME  
DRIVEABILITY

## Operate one ton with one hand

TWINCA develops, manufactures and sells hydraulic mini dumpers to customers all over the world.

Under the name of Contractor we have set a quite new standard as to driving of mini dumpers. Contractor has a unique steering gear and is therefore much easier to operate than any other mini dumper on the market.

The key words of any of our products are quality, stability and perfect ergonomics

## Save time and money

Contractor saves your company both time and money, as it makes operating with heavy loads easier and more rational. Contractor with scissor lift allows you to load a container from all sides. You save costs for steel plates, man-hours and room.

## Take good care of your employees

By using Contractor your employees will experience a much easier day at work. Your employees will avoid hard physical strain, when handling heavy loads. The risk of sick days and physical disabilities is significantly smaller.

We always listen to our customers' needs and develop new machines that meet the current requirements regarding functionality, safety and working conditions.

## Focus on safety

Contractor is designed in accordance with the highest safety standards.

All models have parking brakes as standard equipment and safety devices. The direction of travel is reversed by activation of the safety device. In this way, the operator avoids getting hurt, should he be trapped between the machine and e.g. a wall.

## Good working environment

Our slogan is "Operate a ton with one hand". This emphasizes just how easy it is to operate and handle Contractor even on rough ground without using physical power.

All engines are suspended on rubber mountings in order to reduce vibrations.

The noise level of our gasoline-powered models is 97 dB.

The electrically powered models are noiseless.

## Value for money

At TWINCA we have made a deliberate choice of quality components (including engines, variable pumps, hydraulic components, wires etc.) in order to guarantee a reliable, high-quality mini dumper. We use high-strength steel to ensure a wear-resistant and durable frame and truck bed, which reduces the net weight considerably.

We quality-test every single machine prior to delivery.

Contractor is suitable for landscaping, paving, contracting, agriculture, cemeteries, public works departments, renovation and rental businesses.

## The meaning of the letters

The name of all Contractor models consists of a unique combination of letters and numbers.

E = Electrically powered

G = Gasoline ( Petrol )

S = Scissor lift

ST = Standard

GE = Gasolin economic (Petrol )

Quality,  
stability and  
perfect  
ergonomics

# Contractor E-800

## Advantages

- Electrically powered
- Load capacity of 800 kilos
- Moves up to 30 tonnes in one loading

Contractor E-800 has auto steering which makes it easier to operate the dumper even in narrow conditions.

## Technical Data

Battery: 4 x 6 volt  
Running hours: up to 14 hours  
Speed: 0-6 km/h  
Charging time: 6 hours

Truck bed: Hydraulic  
Capacity litres: 280 litres  
Capacity kilos: 800 kg  
Lifting height: 2000 mm

Machine dimensions: L = 2200 mm.  
W = 870 mm.  
H = 1120/920 mm

Weight: 420 kg

Wheel size:  
Driving wheels: 18 x 7  
Turning wheels: 140-6

Multi-indicator: LED display

Safety device:  
The machine will proceed at low speed in case the driver is trapped.
