

Ogura HBC-520 Hydraulic Rebar Cutter

Made In Japan

HBC-520 electric hydraulic rebar cutter have been designed for cutting maximum 20mm diameter high tensile rebar with ease for factory & on-site applications. Ogura's HBC-520 rebar cutters incorporate several safety features including an ergonomically designed cover guard system located over the moving cutter blades that provides protection to the operator when the tool is in operation.

The HBC-520 hydraulic system is powered by a Makita 230V electric motor. During operation, the specially designed fan cooling system delivers a high volume of air over the hydraulic pump and electric motor power supply to prevent overheating issues. The electric motor is also double insulated for safe operation.

Ogura HBC-520 Hydraulic Rebar Cutter	
Max. Cutting Capacity:	20mm Diameter Rebar
Max. Cutting Speed:	2.5 Secs
Weight:	12.8Kgs
Dimensions (L) x (W) x (H):	396 x 112 x 220mm

FOR PROFESSIONALS THAT NEED TO CUT HIGH TENSILE 20MM DIAMETER REBAR WITH EASE
